## EXPERIENCE

### Actual Pixel

Software Developer

March 2023 - Present

- Led the development of key features using React.js and Node.js in Agile **Projects**, enhancing performance and driving business growth.
- Actively participated in sprint planning, stand-ups, and retrospectives, ensuring smooth project **execution** and resolving challenges effectively..
- Developed and integrated **RESTful APIs** with Node.js, improving application performance and user satisfaction.
- Code reviews and mentored team members to ensure code quality and adherence to best practices, while optimizing application performance using **React.js and Node.js**

### Taleperformance

Service Associate

March 2021 - March 2023

- Led operations for a high-performing eCommerce website, managing a team of **12 members** with strategic task allocation.
- Optimized product **performance** and streamlined processes, leading to measurable improvements in user engagement and conversion rates.
- Worked closely with clients to deliver results, driving significant **business growth** and satisfaction.
- Contributed to the overall success of the business through data-driven strategies and **management**.

## SKILLS

LANGUAGE: JavaScript , TypeScript , Sql & NoSql , HTML , CSS  
LIB & FRAM: React.js , Node.js , Express.js , Redux , MUI  
TOOLS: VSCode , Git , GitHub , Postman , Swagger , Docker , JIRA , Asana , FIGMA  
EXPERTISE: Code Review , Performance Optimization ,Webpack , Responsive Design , Microservices  
SOFT-SKILLS: Team Handling & Collaboration , Problem Solving , Adaptability , Time Management

## PROJECTS

**Care-Management-Portal** *React.js , JavaScript , MUI* <https://care-management-portal.vercel.app>

A centralized dashboard that provides doctors with real-time insights into patient health metrics, including heart rate, respiratory rate, and temperature. The dashboard also includes patient profiles, doctor details, and communication features to enable efficient patient monitoring and management.

**Inventory-Management-System** *React.js , JavaScript , CSS*

The Inventory Management System is a comprehensive solution tailored for e-commerce and retail operations. It streamlines inventory tracking, sales data, vendor information, and reorders, ensuring smooth processes with real-time updates and actionable insights. This enables businesses to make informed decisions and optimize their inventory management, enhancing overall efficiency.

**E-commerce Web Application** *TypeScript , React.js , Node.js , MUI*

Developed a full-featured e-commerce web application using React, JavaScript, and a RESTful API backend. This application enables users to browse products, view detailed descriptions, add items to the cart, and complete secure online transactions. The admin panel allows for easy management of products, orders, and customer data.

## EDUCATION

**University Institute of Technology, Barkatullah University Bhopal**

Bachelor of Engineering in Electronics and communication GPA: 7.2

AUG 2016 - JUN 2020

**St. Anthony convent school**

Senior School Certification Examination – PCM , GPA: 76.8

JUL 2015 - MAY 2016

**Lions higher secondary school**

High School Certification Examination – PCM , GPA: 73.5

JUL 2013 - MAY 2014

## AWARDS

**Earn Coding Ninjas Specialist Badge**

Earned after successfully solving multiple coding challenges and demonstrating proficiency in programming concepts and problem-solving skills.
